## **Densys Founder Dr. Moshe Ernst Announced as Speaker at Herzog Patents Conference**

**JERUSALEM, Israel** — Densys Ltd. (Densys3D) today announced that its CEO and Founder, **Dr. Moshe Ernst**, will serve as a featured speaker at the upcoming **Herzog Patents Conference**. Dr. Ernst will lecture on monetizing intellectual property as one of three speakers anchoring the event, which will also feature Dr. Ernst in a dedicated panel of five industry experts.

The high-profile, invitation-only event of Hertzog Patents will gather over 250 exclusive attendees, including top global legal minds, corporate strategists, prominent Venture Capital (VC) funders, and tech innovators. The conference will be hosted at the prestigious **Conference Center of Herzog Fox & Neeman**, located at Herzog Tower, 6 Yitzhak Sadeh St., Tel Aviv, Israel. Herzog Fox & Neeman is a historic premier Israeli law firm deeply tied to the country's legacy, having been co-founded by the late **Chaim Herzog**—the former major-general, UN Ambassador, and **sixth President of Israel**—and additionally serving as the professional home of his son, the **current President of Israel, Isaac Herzog**, who was formerly a senior partner at the firm.

### **Deriving Value From Intellectual Property**

Dr. Ernst's follows historic enforcement milestones for Densys3D's intellectual property against a dental multi-national. As the lead innovator behind technologies enabling real-time full mouth real time intraoral 3D computerized mapping. This achievement represents a true David-and-Goliath milestone.

### **About Dr. Moshe Ernst**

Dr. Moshe Ernst is the CEO and Founder of Densys3D. With over twenty years of structural R&D experience, his foundational innovations serve as the critical entry point and front end for modern digital dentistry workflows, paving the way for an entirely new gamut of advanced dental equipment, materials, and treatments.
